Confirmation of cooperation

Dear Mrs Braun,

for more than seven years now we appreciate your valuable support in the commercialization of the antimicrobial photodynamic HELBO® therapy (aPDT), an innovative concept to fight infections inside the mouth.

Besides the fact that you have great personal experience as dental hygienist with the therapy we esteem your marketing encouragement in:

1. Publications (in specialised dental journals)
2. Lectures (on congresses, company roadshows, customer events)
3. Other kind of presentations of aPDT on different opportunities

As a summary we can confirm the value of the cooperation from commercial but also from personal point of view – we review the cooperation as a great enrichment for our company.

Yours sincerely,

Ulrike Vizethum
