To Whom it May Concern

It is my pleasure to recommend Mr. Vesna Braun as a professional lecturer. She made a significant contribution to our marketing strategy to strengthen the importance of dental hygienists in our market and accordingly to introduce new technologies and equipment to this field.

We have collaborated with best dental practices in Lithuania to organize highly professional educational events for dental hygienists. We have supplied dental equipment for workshops and introduced Mrs. Vesna Braun as a lecturer. She has proved herself as talented lecturer and valued team player.

Here is a list of events we have organized in cooperation with Mrs. Vesna Braun.

On 10. December, 2011 in Oberkirch (Germany) Mrs. Vesna Braun held a training course on newest technologies and insights in dental hygiene for dental hygienists from Lithuania. Based on best recommendations we have invited only several dental hygienists. Later on we have collaborated with one of them in other events organized by the Society of Dental Hygienists in Lithuania.

On 30. March, 2012 in Vilnius (Lithuania) Mrs. Vesna Braun held a training course on professional hygiene for the patients with implants for 20 participants. This training was organized in one of the best clinics in Lithuania “Vilnius Implantology Center”.

On 20. April, 2012 in Palanga (Lithuania) Mrs. Vesna Braun held a lecture in the congress “Innovations and Updates in Dental Practice”. This congress is very valued by highly professional dental practitioners for the deep insights and newest technologies (about 400 listeners each year).

On 26-27. October, 2012 in Kaunas (Lithuania) was organized the first congress special for dental hygienists “The importance of professional dental hygienist in dental practice”. Mrs. Vesna Braun held 2 hands-on workshops for smaller groups of aprox. 30 persons (4 hours each) on the first day and she was the key lecturer of the congress on the second day for about 300 listeners (6 lectures with 45 min. each).

On 29-30. November, 2013 in Kaunas (Lithuania) was organized the second congress special for dental hygienists “The importance of professional dental hygienist in dental practice”. According the same proved method Mrs. Vesna Braun held 2 hands-on workshops for smaller groups of aprox. 30 persons (4 hours each) on the first day and was the key lecturer of the congress on the second day.

On 26-28. September, 2013 in Vilnius (Lithuania) we had our booth at the exhibition of dentistry, general medicine and wellness „Baltmedica 2013“. We have invited Mr. Vesna Braun to do a live presentation and demonstration of newest dental scalers on visitors at the booth.

In short, I give Mrs. Vesna Braun my highest recommendation. She has demonstrated exceptional ability to adapt to our needs as a distributor of dental equipment but also to the needs of dental hygienists for in depth professional knowledge. As an organizer I value her serious attitude to work, accuracy and ability to perform under tight schedule. I personally appreciate her willingness to share her experience on a broad range of fields: on organization of an event, on promoting a new product or on creating a quick user manual on dental scaler tips. I can also add that we have received a very good feedback on the events from the best practitioners in our market.

If you would like to discuss this further, please feel free to contact me.

Sincerely,

Andrius Vyčas
Managing Director
